

give up
your morning latté

and gain a lot more!

the Sprint Series from
KOCH
\$46 per day
the leading competitor
\$42 per day

Thought you couldn't afford the very best in drilling and dowel insertion technology?
For the price of a specialty coffee, you could own the SPRINT SERIES from Koch Machinery + Systems and significantly boost your production of casegoods, drawers, cabinet and furniture frame parts, solid wood rails, stiles, jambs and posts. Experience high flexibility for short runs or increase your production in work cells by off-loading slow operations from other CNC work centers.

The SPRINT SERIES from KOCH MACHINERY + SYSTEMS
Another example of KOCH's long tradition of ideas for better woodworking.
