**Model 0165**

with 1 glue gun with anatomic grip  
with adjustable glue flow  
and standard pointed nozzle

**Pneumatic gluing system with metered glue dosing  
for accurate application of PVA**

## Gluing system with metered glue dosing, with 1 gun with anatomic grip and universal pointed nozzle.

For professional, precise, fast and clean glue application (PVAc), as well as in any other glue application where a controlled, constant and accurate dosing is needed, both for small batches, custom-made parts and mass processing operations, aiming to optimize the working process in any gluing station.

For solid wood, timber products and panel processing.

For the furniture and housing industry and the joinery.

The pneumatic control guarantees always the same and right glue amount, constantly.

This range of metered gluing systems presents 2 helpful standard adjustments:

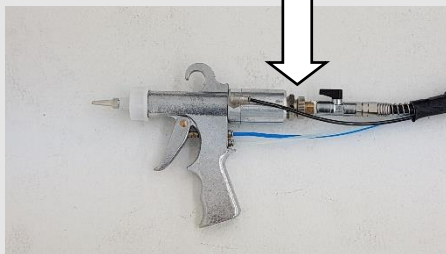

- 1) Glue flow/ amount adjustment;
- 2) Glue dispensing time, therefore, open time of the glue gun.

### Dual function system

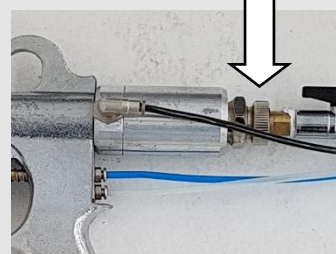

A second version is available, with dual function control (2F65), where it is possible to choose and to select between (A) one-shot glue application, with metered dosing and (B) continuous glue flow.

(A) One-shot metered glue dosing, pneumatic activated, which control the glue application time (ideal for blind holes, dowel holes, vertical drilling holes, blind slots).

(B) continuous flow (for example, for back side grooves).

manual-controlled

## 165V glue gun

For applications where it is necessary to apply glue to the length (longitudinally) of the wooden parts, a second version of glue gun is available, suitable, for instance, for dispensing glue on beams, wooden laths with spatulas or cylinders nozzles, or to apply glue into grooves with the proper nozzle for grooves and by effecting a vertical movement, for instance, into slots and similar.

Also, for applications where it is necessary to apply glue to the length (longitudinally) of the wooden parts, by effecting a vertical movement, for instance, into slots and similar.

165V

## Features and technical specifications

- \_ Stainless steel pressurized tank, 12 kg capacity / 1.5 gallons;
- \_ Hose set, 3 m;
- \_ Glue dispensing gun with anatomic grip, with universal pointed nozzle, light, ergonomic and comfortable;
- \_ Glue gun housing (to be kept filled with water);
- \_ Tap adapter for cleaning nozzles after use – included;
- \_ Service cart;
- \_ Operating pressure, max. 5 bar/75 psi.

## Options

- \_ 2 independent glue guns for 2-man operation (model 0265);
- \_ System with dual function control (2F65 coded), continuous glue flow, metered glue dosing;
- \_ Additional charge for 20 kg/ 5.3 US gallons capacity, pressurized stainless steel tank.

**easyAPP**

## Benefits

- \_ Ready to use, timesaving, easy, clean;
- \_ Always the same and constant right glue amount;
- \_ Metered, one-shot regulation of glue amount;
- \_ Exact and instant glue-application cut-off;
- \_ Less waste and more precision than working manually with squeezezy glue bottles;
- \_ Faster and more precise working compared to squeezezy glue bottles;
- \_ Ergonomic and light glue gun compared to squeezezy glue bottles;
- \_ No afterwards cleaning of the workpieces of too much glue;
- \_ Glue cost savings;
- \_ **Interchangeable nozzles, standard and custom ones!**
- \_ Easiest and minimal cleaning required, pressurized system;
- \_ The tank stays pressurized and ready for use for months;
- \_ Moveable glue applicator.

## Nozzles

The range of nozzles that PIZZI offers are also representing a unique benefit. Nozzles that are the exact contour of your profile, just the right counter-profile, choosing among the wide range of PIZZI standard nozzles and also custom-made ones according to customers' profile. All nozzles, standard and special customized, are interchangeable on PIZZI glue guns.

Ready to use, profitable, easy, accurate, timesaving, clean, safe...  
working efficiently with the best results!

**No mess, no waste... there's a difference...**

**No mess, no stress...**

**pizzitech.it**

People. Passion. Knowledge. Technology. Innovation.

**PIZZI**, one system,  
unlimited possibilities.  
Since 1977,  
**PIZZI** is committed to providing...  
ever better solutions,  
technology and expertise!  
Buy the original,  
buy the best!
